Local Approach

- **GOVT. STEERING BODY** - Infocom Development Authority, Singapore (www.ida.gov.sg)
- **NETWORK READINESS INDEX** sociological research, vol 46, no 2,2007 reporting on research done by Harvard University, USA USA, Iceland, Finland & Singapore - high rankings
- **5 YEAR IMPROVEMENT PLAN** to overhaul existing e-government systems - ***iGOV2010***- costing S\$2b to provide citizens with easier access to services and data ComputerWorld June, 2006

Benefits

- **Accessibility of Information** via network, eg *e-filing* of Income Tax, vehicle ownership, banking accounts, bus routes.....
- **Rapid Traceability** , eg police can access driver particulars in the event of road accidents;
- **Security** of Immigrations points, Airports and Land entry & exit ;
- **Time Savings** *and Many Others*

INFORMATION INTEGRITY

- **Reliability of Data Centers** are achieved using *UPS Power system, CCTV circuits and recorded images encryption, business continuity parallel architecture, etc...*
- **24/7 Monitoring of data network** using *Command Room technology such as SCADA and large display VideoWall screens.*
- **LATEST proven hardware, data pipelines and Information gateways**

INITIATIVES

- PPP - Public Private Partnership - collaboration such as CSR (Corporate Social Responsibility) activities

Concerns

- Digital Divide
- Those without Internet access (*free Citizen connect centers*)
