

BUILDING INCLUSIVE MICRO MONEY SYSTEMS

**RURAL FINANCIAL
INCLUSION SCHEME**

OUR REACH

Vision

- The MMME (Micro Money Management Enterprise) model is an integrated rural development model where an organization has launched a country wide program on an IT enabled platform using self employment model as vehicle for sustainable community & financial development.
- With the resounding response of the model we are now ready to move into several states like Maharashtra, Madhya Pradesh, Hariayana, Rajasthan, New Delhi.

Mission

- MMME took up the task of creating a rural micro credit workshop where several types of plantation, Agriculture & Small Business are destroyed for the lack of investment.
- With a vision that this workshop of sustainable entrepreneurs could be used for any rural ICT & financing initiative in the area.
- Communication heralds in Information-brings empowerment, prosperity, get open market, need to reach out & thereby knowledge.
